

*The DAISSy Research Group of the Hellenic Open University
invites you to take part in
the Summer School on "Digital Collection Curator for Archaeology"*

The Department of History and Culture of the University of Bologna (Italy), under the scientific responsibility of Professor Antonella Coralini and with the collaboration of the Civic Museums of Modena and Emilia Romagna, organizes for the second consecutive year, the **Summer School** on "**Digital Collection Curator for Archaeology**". The initiative is part of the "[DIGITARCH: Digital Collection Curator for Archaeology](https://site.unibo.it/digitarch/en)" project and is organized in Bologna.

In particular, the Summer School has a total duration of **ninety (90) hours**, takes place from **4th to 22nd September 2023** and includes lectures, seminars and practical activities. The educational programme provides a high-level and unique international training, aiming at putting into practice the digital and technological competences of students and professionals working in the field of **cultural heritage**, focusing particularly on the archaeological sector, in line with the professional profile of the **Digital Collection Curator**.

The Summer School is implemented **on-site**, in **English** and provides six (6) University credits (CFU). Its aim is to train qualified/expert professionals in the field of digital humanities, in order to be able to manage all phases of the processes of creating and using digital collections of archaeological interest, from data collection in the field to their use in museums.

The [DAISSy Research Group of the Hellenic Open University \(HOU\)](https://site.unibo.it/digitarch/en), is the Greek project partner and will be represented in the Summer School by Achilles Kameas, Professor of the Hellenic Open University, Director of DAISSy and Panagiota Polymeropoulou, Senior DAISSy Researcher, member of the project working team, who will deliver two lectures, on-site.

 Detailed information about both the terms and the fees of participation in the Summer School, are available on the project website: <https://site.unibo.it/digitarch/en>.

✓ [DIGITARCH](https://site.unibo.it/digitarch/en) is a two-year project, coping with the advanced training in the technological, economic and cultural fields for an attractive European knowledge sector and it is co-funded by the Emilia-Romagna Region (Regional Council Decision no.1625/2021). It is implemented by a consortium of institutions in two countries (Italy, Greece): the University of Bologna is the Coordinator, and the partners are, the [Hellenic Open University](https://site.unibo.it/digitarch/en) and the DAISSy research group, the Melting Pro company, the Municipality of Modena and the Civic Museums of Modena and Emilia Romagna.
