

Georgia Xiromerisiou

CURRENT POSITION

Assistant Professor of Neurology, University of Thessaly, Medical School

PERSONAL STATEMENT

I am working during the last ten years on deciphering the genetic basis of movement disorders and mostly on Parkinson's disease. I was a leader in the field of Neurogenetics in Greece as I conducted the first genetic association studies on Parkinson's disease. I was specialized on Movement Disorders in the most renowned clinical and research centers of the world and I feel very blessed and honored at the same time that I was able to collaborate with the most established scientists in the field. I want to organize a research group in my new position in the University of Thessaly focusing on Neurogenetics and biomarkers in Parkinson's disease

My research activity includes 100 publications and this activity has an h-index 32, SCOPUS.

EDUCATION/TRAINING

Medical School of University of Thessaly, Larissa, Greece 1994-2000 Degree MD

- University Hospital AHEPA, Thessaloniki, Greece Residency 2005-2009
- Laboratory of Neurogenetics, National Institute on Aging, at the National Institutes of Health NIH, Bethesda, Maryland, USA Research fellowship 2004-2005
- National Hospital for Neurology and Neurosurgery, UCL, London Clinical fellowship 2010-2011
- Institute of Neurology, Department of Molecular Neuroscience Research fellowship 2010-2011
- Member of the research team in neurogenetics Section of the Institute of Biomedical Technology CERETETH (Centre for research and Technology-Thessaly) 2011-2015
- Consultant Neurologist, Papageorgiou Hospital Greece, Specialist in Movement Disorders and Neurogenetics 2011-2017
- Laboratory of Neurogenetics, National Institute on Aging, at the National Institutes of Health NIH, Bethesda, Maryland, USA 2017 research fellowship

SELECTED PUBLICATIONS

Selected peer-reviewed publications 54 peer reviewed Publications can be found in
