Vasiliki Brouskeli

Assistant Professor/ Health Psychology/ Democritus University of Thrace

Email to: brouskeli.vasiliki@ac.eap.gr

She is an Assistant Professor of Health Psychology in the Department of Education Sciences in Early Childhood, Democritus University of Thrace. She teaches in a Master's Program of the Department of Education Sciences in Early Childhood (Democritus University) as well as in a Master's Program of the Department of Special Education (University of Thessaly).

She holds a Bachelor's Degree in Psychology from the Aristotle University of Thessaloniki, a Master's Degree in Applied Psychology from the University of Surrey (United Kingdom) and a Doctorate in Health Psychology from the University of Thessaly. She has clinical experience as a psychologist at the Achillopouleio General Hospital of Volos, professional experience as a psychologist-consultant in parental counseling and support programs for the unemployed, as well as in a school integration program for ROMA children, as a psychologist-researcher. Her research interests mainly concern children's adaptation to life events (e.g. chronic illness, death, divorce) as well as coping with crises (e.g. economic crisis, pandemic).
