

Maria Rentetzi

Short Curriculum Vitae

Maria Rentetzi is professor and chair of Science, Technology, and Gender studies at FAU Erlangen-Nürnberg, an affiliate of the Max Planck Institute for History of Science, Berlin, Germany and an ERC Consolidator grantee. Her research focuses on gender, nuclear history, and science diplomacy. She is the author of *Trafficking Materials and Gender Experimental Practices* (Columbia University Press, 2008); *Boxes: A Field Guide* (Mattering Press, 2020); *Seduced by Radium: How Industry Transformed Science in the American Marketplace* (Pittsburgh University Press, 2022) and *The Gender of Things: How Epistemic and Technological Objects Become Gendered* (Routledge, 2023). <https://rentetzi.de>
