

DAISSy-HOU calls for involvement in the «ALL DIGITAL Weeks 2026» transeuropean campaign

- **A L L** • The [DAISSy Research Group](#) of the [Hellenic Open University \(HOU\)](#), the national coordinator for the “[ALL DIGITAL Weeks 2026](#)” campaign, in Greece, calls for involvement in it. The main objective of this initiative is the promotion of digital skills for inclusion, empowerment and employment of all people worldwide.
- **D I G I T A L**
- **Weeks**

As digital technologies become ever more embedded in our daily lives, they shape how we communicate, learn, work, and interact with others. While digitalisation opens new opportunities, it also influences access to information, relationships, and participation in society, raising important challenges related to wellbeing, inclusion, and safety.

Digital participation is not neutral: the way people engage with technology can empower them or deepen exclusion and vulnerability. For many, including young people, older adults, and those with lower levels of digital skills, online environments can feel overwhelming, unsafe, or harmful to wellbeing. This is why healthy digital habits are not optional, but a fundamental condition for meaningful and inclusive digital participation.

Enhance Your Digital Skills! 9–25 March 2026

In line with this concept, the 2026 edition of the ALL DIGITAL Weeks campaign, focuses on “**Digital wellbeing for a competitive Europe**”, highlighting digital wellbeing as a key condition for inclusion, trust, and long-term competitiveness.

Running from **9 to 25 March 2026**, ALL DIGITAL Weeks is organised by the [ALL DIGITAL \(AD\)](#) network, situated in Brussels, one of the major european networks regarding digital skills. DAISSy-HOU, has been a member of the AD network since 2016, and as the National Coordinator, it will enhance the visibility and dissemination of good practices related to the ALL DIGITAL Weeks 2026 campaign, in Greece.

- Participation in the campaign is **free**.
- For organising an event or exploring learning opportunities, you may visit:
<https://all-digital.org/all-digital-weeks/>

-
- Any entity interested in implementing a related activity, can include it in the campaign and achieve its maximum visibility at a European level. This is possible by simply recording the event details on the dedicated "[map](#)" which will stay active in March 2026 and until the end of the campaign.
 - For further promotion of an activity at a national and international level, provided it is already incorporated into the map, its organizer should inform DAISSy-HOU by sending a message to info@daissy.eap.gr. In this way, DAISSy, the National Coordinator, will ensure the promotion of the action, through its own communication channels and network of contacts.
 - Stay tuned and be informed about the ALL DIGITAL Weeks 2026 campaign at national and european levels.
