Teaching Experience

- In August 2019 I taught at the summer school of the University of the Aegean "Cultural Trauma: The Holocaust and Genocides in the East".
- In July 2019 I organized at the Department of Political Sciences of A.P.Th. in collaboration with the University of the Aegean, the summer school "Empirical Research of Greek Culture", in which I taught.
- In 2015 and 2016 I taught «Organization and Management of Education – Educational Leadership», Department of Primary Education, University of Western Macedonia and in 2015 «European Societies and European Intergration», Department of Sociology, University of Aegean (graduate programme).
- In 2012 (Mytilini), 2013 (Limnos) and 2014 (Syros) at the Summer School of the Aegean University (Faculty of Sociology), I taught “Research Methodology, Qualitative and Quantitative Methods”.
- As Professor I taught the following subjects (2001-26):
Social Statistics, Quantitative Methods, Mathematics in Political Science, Electoral Geography, Organization of Political Parties, Applied Political Analysis (undergraduate programme) and Methods of Political Analysis, Electoral Analysis I, Electoral Analysis II, Regional and Local Governance, Political Marketing (postgraduate programme / branch: Political Analysis, Governance)
- As Professor I taught the following subjects (1998-2001):
Introduction to Statistics, Introduction to Computers, Statistics II (undergraduate programme) and Quantitative Methods (graduate programme)
- As Visiting Professor at the School of Planning and Regional Development, University of Thessaly, I taught the following subjects (1994-95):
Statistics I, Decision and Policy Making, Statistics II, Mathematics
- As Associate Professor I taught the following subjects (1993-98):
Introduction to Statistics, Introduction to Computers, Teaching Basic Concepts of Statistics, Combinatorics, Statistics Laboratory I, Statistics Laboratory II
- As Assistant Professor I taught the following subjects (1990-93):
Statistics in Education, Microcomputers and Statistics, Computer Laboratory, Computer Science Laboratory, Introduction to Statistics, Introduction to Computers, Combinatorics
- As Lecturer I taught the following subjects (1986-90):
Mathematical Programming, Biostatistics, Combinatorics, Introduction to Statistics, Statistics in Education, Advanced Mathematics, Statistics Laboratory
- As Teaching Assistant (PhD holder) I taught the following subjects (1985-86):
Mathematical Programming, Biostatistics, Introduction to Statistics
- As Teaching Assistant I taught the following subjects:
Mathematical Programming, Applied Mathematical Programming, Numeric Analysis, Applications of Numeric Analysis in Physics, Biostatistics, Higher Mathematics

Main Research Interests and Projects

Planning, organization and implementation of a special training program for academic and business upgrade of primary school teachers. The project involves planning and implementation of a supplementary training program for primary school teachers in Central Macedonia (Ministry of Education (1/5/1997-31/12/2000, 1.468.986.000 GRD)

The young man after its military service: Problems of integration at the social environment with main orientation to the working market. The aim of this research project was to identify and analyse the problems faced by a young man during his integration to the working market after his military service, to plan exploitation and integration of his capabilities and capacities during his military service in order to support his business future. (Ministry of Defence, 1/5/1998-30/6/2000, 109878,80)

Local governments at the 21st century: Contemporary problems and perspectives. The project includes the analysis of factors affecting the behaviour of people as regards to local governments. We also studied the opinion of employees in local governments organisations (municipalities, prefectures) and the elected representatives to those issues (Research manager: Th. Chadjipantelis, Prof. in AUTH) (KEDKE, 1/6/2001-31/12/2003, 240652,00)

Aristotle University Observatory: This project identified the student info for the period 1985-1996. It is a descriptive study for the complete student population as regards to gender, way of entrance and their experiences within the university. There were also indicative opinion studies for the Aristotle University students aiming to evaluate their life in the university (Research manager: Th. Chadjipantelis, Prof. in AUTH) (AUTH Rector's council, AUTH property management unit 1/7/2001-31/8/2007, 91727,00)

Evaluation of social services in Municipality of Sykies: The case of nursery schools. This is a census study involving parents of infants enrolled in the nursery schools of the municipality of Sykies as regards to their operation and satisfaction factors. Furthermore there was identification of the nursery schools' workers based on focus groups (Research manager: Th. Chadjipantelis, Prof. in AUTH) (Nursery schools in the municipality of Sykies (1/5/2005-31/8/2005, 3781,00)

System for Identification and evaluation of tertiary education: This project defined identification indicators and an online monitoring system for them. A pilot application done for the University of Thessaly (Research manager: Th. Chadjipantelis, Prof. in AUTH)

Technology Forecasting in Central Macedonia: Th. Chadjipantelis was responsible for the human resources dimension. The aim was identification of the status in human resources and the main trends in specialization, employment and training of human resources. The main dimension was emerging of the issues expected to mainly interest the local market in the next decade. (**ERDF Innovative Actions**).

Citizens and civil nuisances: The project presented the results of indicative research regarding the citizens' opinion for civil nuisances at the extensive Civil area of Thessaloniki (Research manager: Th. Chadjipantelis, Prof. in AUTH) (Technical Chamber of Greece/ Central Macedonia branch, 8/2/2006-31/8/2006, 12605,04)

I was the scientific responsible for the Greek part of the “EarlyStatistics” project (<http://earlystatistics.net>), which awarded as the **2009 Best Cooperative Project Award in Statistical Literacy**. This award is provided every 2 years as recognition to projects of statistical interest which are exceptional, innovative, affect a large part of population and are a result of cooperation between various institutions (statistical authorities, schools, scientific units, universities, etc.). The project regards preparation of training material for teaching statistics using new technologies from distance.

Electronic voting application (<http://helpmevote.gr>). Helpmevote is a digital application which allows voters to compare their opinion into various issues of politics and current broad interest with the relevant opinion of candidates and political parties. There are many existing relevant experiments (usually called VAAs - Voting Advice Applications) in USA and Europe. Our research team has applied the current digital application in the national elections in UK (6th May 2010 -<http://www.ukelections2010.org>) and the presidential elections in Brazil (3rd October 2010, <http://www.meuvoto2010.org/>). The electronic voting counsellor has been firstly applied in Greece in the local government elections of 2010 and was used by more than 30,000 citizens until the end of the elections 1st round.

New distribution system of Central Independent Resources (KAP) in Greek regions. (Association of Greek Regions ENPE, PETA). This is a study to quantify the criteria for the allocation of CIP regional governments.

I was administrator of the Hellenic section of the CSS (COMPARATIVE CANDIDATES SURVEY) Program which is a cooperation of 30 research units. I represent Greece in the COST action with title “The True European Voter: A Strategy For Analysing the Prospects of European Electoral Democracy That Includes the West, the South and the East of the Continent (TEV) (ISCH Action IS0806) approved in November 2008.

I was a member of the Special Scientific Committee of the Ministry of Interior Decentralization and E-government for the new architecture of Administration and Regional Administration as well as the Special Committee for the electoral law.

I am elected (until Oct 2024) representative of the Greek Society Data Analysis to International Federation of Classification Societies The IFCS is a non profit, non-political scientific organization, the aims of which are to further classification research. Among other activities, the IFCS organises a biennial conference, and supports the “Journal of Classification” and the journal “Advances in Data Analysis and Classification (ADAC)”. I assigned as Head of the IFCS2019 conference (<http://ifcs2019.gr>)

Social Activity

Member of the Greek Mathematical Society (Central Macedonia Section) (president from 2002 to 2006)

Member of the Greek Statistical Institute (Member of board of directors from 1994 to 2006)

Member of the Balkan Union Statistics (Association of Balkan Statisticians) (Member of the Executive Committee of the Greek Department since 1997)

I participated in the world delegation of Statisticians (18 members) who visited China in October 1997 within the context of the Citizen Ambassador Program of People to People International. The aim of the program was to study the necessary adjustments had to be done in order China to be embedded in a common statistical framework according to the official statistical data, statistics education and inter-firm training program for the use of statistical data and statistical packages. Within this framework co-operations with state and private organizations have been developed.

I was responsible for the project «Professional and Academic upgrading of the primary education teachers" funded by E.U. for the following counties: Thessaloniki, Imathia, Pella, Chalkidiki, Pieria, Serres and Kilkis. This project is a part of a more general effort at a national level to upgrade the university diploma of 2500 primary school teachers (there are 12000 in the entire country).

I was a vice project coordinator in the "Carrier Services Office" (2000-2001)

I was a member of the Board Committee of the Educational Research Center (2000-2004)

I am a representative of Greek Ministry of Education in EUROSTAT

I was national representative (of Greece) in E.U. for FP6 (Target 7: Citizens in a knowledge based society)

I was elected member of the National Committee on Administration Reform

I am the Head of the Committee for Control of Public Surveys (established following agreement of the Committee with the Ministry of Media)

I am serving as a country expert to Varieties of Democracy program for Greece and Cyprus since 2013. V-Dem is a new approach to conceptualizing and measuring democracy (<https://www.v-dem.net/en/>)
