

Enrol in DAISSy–HOU MOOC on Enhancing Agency in VET

The [DAISSy Research Group](#) of the [Hellenic Open University \(HOU\)](#) invites you to register for the new **Massive Open Online Course (MOOC)** organized within the framework of the European project “[Develop Innovation in Digital and Agency Competences Training for Inclusive Vocational Education](#)” (**DIDACTIVE**). This is a pioneering training program designed to enhance agency skills in adult learners with low qualifications.

In today’s rapidly evolving labor market, the ability of individuals to act autonomously, adapt, and make informed decisions is more important than ever. The DIDACTIVE project responds to this need by offering professionals and educators innovative methods and practical tools to support low-skilled adults, both in physical and digital learning environments.

Specifically, the DIDACTIVE project’s MOOC offers comprehensive online self-paced training organized into four main thematic modules:

M1 | Imagination & Future-Orientation

M2 | Mobilisation & Action

M3 | Self-Regulation & Resilience

M4 | Learning to Learn & Adaptation

Combined, these modules provide a holistic framework that helps learners develop confidence, resilience, and the ability to manage change.

- The DIDACTIVE MOOC is addressed to trainers, Vocational Education and Training (VET) professionals, and staff interested in enhancing their educational practice.
- It is offered free of charge, in Greek.
- Registration is completed by submitting the corresponding form: [Google Form Registration](#).
- Upon successful completion of the training program, participants receive a certificate of attendance.

➡ DIDACTIVE is a two-year project (30.10.2024-31.01.2027) funded by the ERASMUS Lump Sum Grant program of the European Union (EU). It is coordinated by “En.A.I.P. Piemonte” (Italy) and the project consortium includes six (6) partners in five (5) EU member states (Austria, Croatia, France, Greece, and the Netherlands). The **DAISSy Research Group of the Hellenic Open University** operates for the effective implementation of the project activities in **Greece**, while supporting relevant bodies, aiming at maximizing the exploitation of the project’s results.
