A t h a n a s i o s K a r a s i m o s
Assistant Professor of Computational Linguistics / Department of English Language and Literature, School of English / Aristotle University of Thessaloniki
Email to: akarasimos@enl.auth.gr | akarasimos@gmail.com | karasimos.athanasios@ac.eap.gr

Athanasios Karasimos holds a BA in Greek Philology (Linguistics) and a PhD in Computational Linguistics (2011) from the University of Patras, an MSc in Speech and Language Processing from the University of Edinburgh (2003), and the European Masters in Language and Speech (Patras). He has been Assistant Professor of Computational Linguistics at the Aristotle University of Thessaloniki since 2022 (tenured in 2026) and has taught as a tutor at the Hellenic Open University since 2012. His research interests include computational morphology and allomorphy, corpus linguistics (aphasic, learner and dialectal corpora), Large Language Models, digital humanities and thesauri, and educational technology and game-based learning. He has participated in more than 15 funded research projects, among them CACLA (H.F.R.I., coordinator of the Computational Linguistics team), THALIS (Greek Corpus of Aphasic Discourse), DARIAH-GR/DYAS and APOLLONIS, PARTHENOS (H2020), Digitizing the Cappadocian Dialectal Landscape and DigitalLandscape (H.F.R.I.), ENRICH and Neologisms of Modern Greek (Academy of Athens); he was also an IKY postdoctoral fellow (2017–2019). He has more than 60 publications in journals, edited volumes and conference proceedings, including four Brill encyclopaedia entries, nearly 80 conference presentations, and has edited collective volumes and journal special issues (De Gruyter, RPLTL, JAL). He supervises four doctoral theses, has supervised more than 50 MA dissertations, and chaired ISTAL 27 (2026).
