

Thomas K. Dasaklis is currently an Assistant Professor at the Hellenic Open University, School of Social Sciences. He graduated from the University of Piraeus, Department of Industrial Management and Technology. He holds an M.Sc. degree in supply chain management and a PhD degree in emergency supply chain management and disaster response, from the University of Piraeus. His research interests lie in the area of supply chain management, operational research, humanitarian logistics/disaster response, data analysis, and blockchain technology. He has participated in National and European Research projects and has published more than 30 papers in books, peer-reviewed journals and conference proceedings. He has worked for the European Commission (DG Humanitarian Aid and Civil Protection) and the University of Piraeus Research Centre. He has also worked in the private sector for three years as a supply chain director. He has served as a guest editor, Program Committee member and reviewer for various international journals and scientific conferences.
