2. LEARNING OUTCOMES

Learning Outcomes <i>The course learning outcomes, specific knowledge, skills and competences of an appropriate (certain) level, which students will acquire upon successful completion of the course, are described in detail. It is necessary to consult:</i>	
The purpose of the Practical training Module is the application and deepening of the theoretical knowledge and skills that students acquired during their studies in the Masters Program through their integration, for a short period of time, in a real work environment and the addition of professional skills and qualifications to their academic training. It allows the acquaintance of students with possible future professional fields, their familiarization and networking with institutions and their staff and thus completes the educational experience through the combination of practice and theory.	
General Competences <i>Taking into consideration the general competences that students/graduates must acquire (as those are described in the Diploma Supplement and are mentioned below), at which of the following does the course attendance aim?</i>	
<i>Search for, analysis and synthesis of data and information by the use of appropriate technologies,</i> <i>Adapting to new situations</i> <i>Decision-making</i> <i>Individual/Independent work</i> <i>Group/Team work</i> <i>Working in an international environment</i>	<i>Project planning and management</i> <i>Respect for diversity and multiculturalism</i> <i>Environmental awareness</i> <i>Social, professional and ethical responsibility and sensitivity to gender issues</i> <i>Critical thinking</i> <i>Development of free, creative and inductive thinking</i>

<i>Working in an interdisciplinary environment (Other.....citizenship, spiritual freedom, social awareness, altruism etc.)</i>
• <i>Respect for diversity and multiculturalism</i> • <i>Social, professional and ethical responsibility and sensitivity to gender issues</i> • <i>Individual/Independent work</i> • <i>Team work</i> • <i>Critical thinking</i> • <i>Development of free, creative and inductive thinking</i> • <i>Working in an interdisciplinary environment</i> • <i>Introduction of innovative research</i>

3. MODULE CONTENT

Commencement of Practical Training requires the successful completion of nine Modules (module DHG65 can be attended in parallel with Practical Training). The topic of Practical Training must be directly related to the modules and topics of the program.
